William Armstrong

William Clinton Armstrong III, a Malibu, CA resident for 68 years, died peacefully Friday, November 23rd, surrounded by his family, seven weeks from his 104th birthday! Bill lived a long, healthy, productive, full life and contributed greatly to his family and his community. He was the beloved father of three children, Alan Armstrong, Lea Anderson, and Lani Netter, grandfather to Sunshine and Brian Armstrong, Ryan and Tor Anderson and Grace and Jake Netter, and great-grandfather to seven. Living with his family in Latigo Cove since 1950, Bill enjoyed everything that the Malibu life style afforded, sailing, swimming, skin diving and riding the family's horses on the beach. Bill remained bright and active until the end and was seen daily raking the kelp off his beach up until the age of 102 - an inspiration to us all. A member of the Pierce-Arrow Society since 1960 and cofounder of the Southern California Pierce-Arrow Chapter, he greatly enjoyed taking his family on their annual cross country tours. Malibu will long remember Bill driving his 1918 Pierce-Arrow in its annual Independence Day parade. The Society extends its sincerest condolences on behalf of its members to the Armstrong family.

Don Marsh

Don Fredric Marsh, 88, died on Dec. 7, 2018, at his home in Rockport, IN. He was preceded in death by his first wife Jacqueline and his son Michael. He is survived by his wife Molly; sons Kelly (Piedad), Mark (Monika) and David (Jodie) and grandchildren Jackie, Yesica, Brady, Michael, Jordan, and Matthew. Don was known for his quick wit, active mind, tremendous drive, and was always looking for ways to help those around him succeed. Just as in everything he did, Don threw himself into service to his community serving on the boards of various organizations. His lifelong love of all things with wheels began as a little boy, a passion he pursued both professionally and personally. Don collected classic cars for years, toured actively all around the country and raced with both vintage cars and in the IMSA series. Don was a member of the Pierce-Arrow Society since 1999 and had a 1931 Model 42 rumble seat roadster. The Society extends its sincerest condolences on behalf of its members to the Marsh family.

PIERCE-ARROW VEHICLES FOR SALE

1913 Model 66A 7 Passenger Touring \$295,000

This super rare 1913 Pierce Arrow Model 66A is currently for sale out of Newport Beach, CA. This vehicle runs and the radiator is rust free. Please look at the pictures and let us know if you have interest or questions. You can also go to our website at www.1913piercearrow.com. We are asking \$295,000 but are entertaining reasonable offers. Features a 66 hp, 824.7 cu. in. T-head inline six- cylinder engine, four-speed manual transmission, solid front and live rear axles with three-quarter elliptical leaf-spring suspension, and rear-wheel mechanical brakes. Wheelbase: 147.5 in. An ultimate Brass Era automobile; the largest engine of the era One of 14 known surviving Model 66s The Model 66 Pierce- Arrow occupies the same position among Brass Era automobiles that the Bugatti Type 41 La Royale does among its Classic Era brethren. It was the largest, grandest, and most potent thing produced by a manufacturer during its time. For collectors of contemporary automobiles, it is simply the Holy Grail. The 66 was named for the rated horsepower of its engine, a massive inline six-cylinder mill that, at its introduction in 1910, displaced an immense 714 cubic inches. By 1913, the engine had swelled to nearly 825, and while its name remained the 66, its rating had increased to nearly 100 horsepower. The body of this 1913 Model 66A was built with a full wood frame covered with sheet aluminum. For some years, the model was recorded in Guinness World Records as having the largest engine installed in a production automobile. Some 1,250 Model 66s were built between 1910 and 1918, but only 14 survivors are recorded today. Almost all are held in private collections and rarely, if ever, emerge for sale on the public market. Certificate of Title is available upon request.

1926 Series 80 Four Door Sedan \$49,900

1926 Model 80 Pierce Arrow four door sedan. Car no: 8011671 Engine no: 8011673. Last registered for the road in Maryland 1968. In storage until purchased by vintage car dealer and sold to PAS member 3389 in 2003. Body removed, frame sandblasted and painted with rustproof paint. Body and wheels painted with Dupont Ful-cryl ii acrylic enamel SS Spectramaster Red. Engine has been completely rebuilt including six new pistons and valve lifter brackets. New wiring through out. Four new tires and tubes. Two used tires on rims are mounted on the spare tire carrier at the rear of the car. Due to the death of the owner, the interior has not been done. Due to the passing of my mom and subsequent storage issues we must sell.

1931 Model 42 7 Passenger Sedan \$32,000

Previously owned by former PAS members Jason Johnson and Kenneth Woods, who bought the car in the early 1950's. It is very original, has been sitting for years, but was fully driveable when parked. Engine was bored and rebuilt, Clutch and brake drums relined, probably 1,000 miles ago. Body has some dings. Never any significant repairs or restoration. The car is pictured on the cover of THE ARROW DRIVER Volume 1 Issue 3 Midwest Region. The car is located in Minneapolis, MN. Please contact Jason at 612-618-2277 jasonrandallj@gmail.com

1935 Model 1245 7 Passenger Sedan \$55,000

There are cars in your life that you know that at some point, you are going to regret parting with....I can't imagine that this won't be one of them. Due to the kindness of others, I have a bit of the history and photos on the car...I understand that it went through a total engine rebuild in the 80's by Eric Rosenau, and the body and wheels were repainted in the early 90's. Not sure if the interior has been restored or if it is original, but it is very presentable. Obviously it's an older restoration, but still very nice. It really is an eye catcher, but because of where I live its just not being driven. It's only been started twice in the last year, and worse yet, only out a couple of times in the years since it was acquired. I can send plenty of detailed photo's should you be interested. \$55,000 or open to offers. Thanks for looking, Kerry

PARTS & SUPPLIES FOR SALE

“Pierce-Arrow Legacy”

Book for Sale: “Pierce-Arrow Legacy”, authored by Mrs. Eleanore Leigh, great-granddaughter of George N. Pierce. May be ordered on Amazon.com by book title. George N. Pierce had dreams and knew how to bring them into reality. His faith and his ability to make wise choices created a harmonious work force in his factory and his family. Journey with me to experience the faith and development of a man who “Never Despaired” (his family coat of arms), how he kept persevering and fi-

nally produced a successful business and superior product, the Pierce Arrow car. He began with household items; birdcages, ice chests, washing machines, then branched into bicycles and finally invented the most desired automobile in his time.

1929 - 1938 Purolator Style Billet Oil Filters

Production Run #2. Used on 8s & 12s. E-2 for 1929 to 1932 small oil lines. 1933-1938 Purolator L6 & L8 exact reproduction oil filter made from billet aluminum. As used on Pierce Arrow cars and other large CCCA Classics. These have a heavy duty housing with an O-ring seal and a modern spin on oil filter inside. They will not crush or leak like the original converted oil filters do. They look exactly like the originals do, exact size, shape, and all dimensions. I also have correct reproduction oil filter brackets, as well as oil lines and fittings available. The billet filter in L6 & L8 will be available for inspection at the PAS meet in St Louis, price is \$550.00 for the filter plus shipping. Thanks for your support on another new Pierce Arrow project. John.

1933 - 1934 Headlight Lenses

These are exact copies of the very rare left and right Multi-Beam lenses that were used only in these two years and only in Pierce-Arrows. Single glass lens prices went into 4 figures in the 1990's and continue to rise. This is a limited quantity Museum fundraiser. These reproductions look and feel authentic. Durable, forever clear, non-yellowing Lexan-like acrylic. If you have been searching for original lenses with no success, can't afford them, or have older yellowed plastic copies, then these quality reproductions are your solution. If you tour a lot, why risk damaging the valuable glass originals? Bill Morris & Dave Stevens worked with PAS member Bill James to produce a small production run of high quality reproduction lenses, donating labor and material costs. We were sold out for several months, but a few more pairs are now available. If you have a 1933 or 1934 Pierce-Arrow, don't miss this limited opportunity. \$700 Pair plus \$15 USA shipping. Send check payable to: PAS-GAG Museum Projects, PO Box 309, Whitehall, MI 49461-0309 or call Dave at 231-740-6610 to purchase with Visa or MasterCard between 10 AM and 10 PM EST.

Steering Stabilizer

Stop that (sometimes violent) steering wheel shaking with this steering stabilizer. This is a shock absorber that will dampen the back-and-forth motion of the steering linkage, which shows up as the steering wheel shaking. One end of the stabilizer clamps onto the front axle of the car. The other end clamps onto the tie rod. It is a very easy installation and does not require any drilling, welding or modification of your car. It is well hidden behind the axle and splash pan. The axle clamp will fit up to a 3 inch wide axle and the tie rod clamp will fit up to a 1-1/4 inch diameter tie rod. I have used one on my 1929 Model 133 for many years. It will definitely fit 1929-1931 Pierce-Arrows and I have fit it to a Series 80 Pierce. It will likely fit many other makes and models. Please contact me with any questions. Price is \$150.00 USD plus \$20.00 shipping in the US. Pay Pal, check or money orders accepted. Call or email for international shipping. Please call Eastern time.

'29-'30 Floor Board Transmission Pad

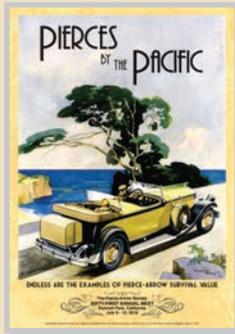

We have just completed our first run of floor board center rubber transmission pads. My parts books shows the same part number (125234) for both 1929 and 1930 all models. Great effort has gone into making the rubber mold to be an exact copy of the original. The center holes have not been cut to allow a close fit to the top of your carpet. Carpet height will change depending on insulation and carpet pile used in your car. Only a limited number have been made, when sold out, we will take names for delivery at a later date. Price \$250.00 plus shipping. US shipping \$11.00. Please e-mail for additional photos or questions.

Grand Experience Tour

Experience Grand Traverse Bay, Mackinac Island and the tradition of the Grand Hotel!

Begin the journey north on scenic country roads through quaint towns to Traverse City. Enjoy dinner at the Haggerty Car Collection and spend the night overlooking beautiful Grand Traverse Bay.

From Traverse City up the coast of Michigan's Lower Peninsula, take in the stunning natural treasures of sight and sound.

In Mackinac City, board a ferry to one of the National Geographic's top 5 island destinations in the world - Mackinac Island. Arrive to a Victoria style setting where only bicycles and horse-drawn carriages are allowed. Discover the history of Fort Mackinac, a former British and American military outpost, and enjoy magnificent views of Mackinac Bridge, one of the largest suspension bridges in the US. Also take in the splendor of Arch Rock a naturally formed limestone arch standing nearly 15 stories over the shoreline.

Stay or visit the Grand Hotel where you will experience spectacular views of the Straits of Mackinac (where Lake Michigan and Lake Huron connect) from the world's longest porch. Rich in history and the filming location of *Somewhere in Time* with Christopher Reeve and Jane Seymour, the Grand Hotel has been charming guests where meals are an event and nightly dancing remains part of the experience since 1887. Upon departing the island, you will have had an unforgettable adventure!

Rejoin your cars to venture south through Tunnel of Trees, a corridor of lush hardwoods and evergreens knit into a canopy over the road, before enjoying lunch at the historic Leg's Inn, on the shore of Lake Michigan. Continue traveling south to stay in Traverse City with a farewell dinner at Lochenheath Country Club overlooking stunning Grand Traverse Bay. Enjoy the hotel Continental breakfast before departing back to Kalamazoo.
